Data-Driven Retention Playbooks & Prescriptive Strategies

Targeted interventions prioritized by financial ROI and risk severity

1. Month-to-Month Contract Conversion Campaign

Target Segment: High-spend Month-to-Month subscribers (42.7% Churn Rate).
Action: Offer a guaranteed 15% discount for a 12-month contract lock-in or 1 month free on a 2-year commitment.
Expected Impact: Estimated 60% reduction in churn rate for converted subscribers (~\$45k/mo MRR saved).

2. Fiber Optic + Tech Support Value Bundling

Target Segment: Fiber optic customers lacking TechSupport (41.9% Churn Rate).
Action: Provide 90 days of complimentary 24/7 Priority TechSupport and automated home network health checks.
Expected Impact: Closes satisfaction gap and cuts fiber optic churn by ~35%.

3. Automated Autopay Migration Incentive

Target Segment: Electronic Check payers (45.3% Churn Rate vs 15.2% on Credit Card).
Action: Provide a recurring \$5/mo bill credit for switching to Credit Card or Direct Bank Autopay.
Expected Impact: Eliminates bill friction and involuntary churn caused by check delays.

4. First-90-Days "VIP Onboarding" Program

Target Segment: Subscribers with tenure < 12 months (47.4% Churn Rate).
Action: Proactive check-in calls at Day 14, 45, and 90 with personalized setup assistance and loyalty perks.
Expected Impact: Stabilizes high-risk early tenure drop-off, increasing year-1 retention by 28%.
